FISCAL IMPACT: Not to exceed \$25,000

FUNDING SOURCE: Class C

ACCOUNT NUMBER: 11-7583-40750-00000-0000

ISSUE:

Traffic Signal Relocation 4700 S 4000 W.

SYNOPSIS:

This is an Interlocal Cooperation Agreement with Salt Lake County to relocate the traffic signal controller cabinet and signal pole on the northeast corner of the intersection.

BACKGROUND:

Salt Lake County currently constructs new signals and signal upgrades on our traffic signals. We have had good experience with the construction done by the County.

The traffic signal controller cabinet and signal pole located on the north east corner of the intersection of 4700 S 4000 W has been repeatedly damaged in traffic accidents and large trucks off-tracking over the sidewalk when turning right. This is because it is located too close to the curb. The County will relocate the cabinet and signal pole further away from the curb to reduce the probability of future damage. The maintenance of this intersection is shared between West Valley City (50%), Salt Lake County (25%) and Taylorsville (25%). We are contributing 50% of the total cost for this project.

RECOMMENDATION:

Approve Agreement.
